## Overview

---

What is a supercapacitor market?

Stakeholders in the supercapacitor market are aiming to capitalize on various performance characteristics of pseudo-capacitors and hybrid capacitors, which can reflect higher energy density than any other types of supercapacitors.

Where can I buy supercapacitors & ultracapacitor?

The link could not be generated at this time. Please try again. Supercapacitors & Ultracapacitors are available at Mouser Electronics from industry leading manufacturers. Mouser is an authorized distributor for many supercapacitor and ultracapacitor manufacturers including Cornell Dubilier, Eaton, Elna, KEMET, KYOCERA AVX, Maxwell, Vishay & more.

What is a supercapacitor?

A supercapacitor is a high-capacity capacitor with capacitance values much higher than other capacitors (but lower voltage limits) that bridge the gap between electrolytic capacitors and rechargeable batteries.

What is the highest value supercapacitor?

Highest value supercapacitor has been made by Ningbo CSR Technologies, China. It is 30,000 Farads 2.8 V, and are intended for their buses, which will run 10 km with 1 minute charge. In terms of short term power with high energy, it is the capacitor bank installed at Dresden Laboratory.
