

**NKOSITHANDILEB SOLAR**

# **Supplier of 20-foot solar-powered containers for farms**

## Overview

---

How much solar can a 20 foot container hold?

20 foot containers can expand from 3,000W of solar up to 6,000W. 40 foot containers can expand from 3,000W up to 12,000W of solar in the future. We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable Ground Mount.

What is a 20 & 40 ft shipping container?

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank. Fully customizable to your exact needs. The durable container design is completely waterproof, protects you and your equipment from the elements and any potential security threats.

What can HC grow in a shipping container farm?

HC offers standard 40ft and 20ft shipping container farms, as well as smaller hydroponic containers such as hydroponic cabinets, grow boxes, etc., or more custom sizes. You can produce green fodders, strawberries, lettuce, mushrooms, weeds, herbs, microgreens, or most vegetables such as tomatoes by installing different hydroponic planting systems.

What are the different types of HC container farming systems?

There are two types of HC container farming systems, hydropower control systems for fodders, microgreens, mushrooms, etc., and nutrient solution control systems for strawberries, lettuces, herbs, etc. Efficient production of various crops can be guaranteed. Systematically targeted adjustments for different crops.
