Overview

How much does a solar battery cost in Sydney?

In Sydney, installing a 5kWh battery starts from around \$7,500, while a 15kWh system costs from \$22,500. These prices don't include the available NSW battery rebate. Keep in mind: solar batteries store excess solar energy, so you should be generating at least 8–13kWh of extra power daily to make the most of a larger system.

Are solar batteries a good investment in Sydney?

If you're searching for solar battery prices in Sydney, you're not alone. With electricity bills rising across NSW and more homeowners wanting true energy independence, solar batteries have become one of the most in-demand home upgrades of 2025.

How much does a solar battery cost?

Thanks to falling prices and the federal battery rebate, thousands of households can now expect payback within the warranty period, particularly if they use a lot of power at night or join a Virtual Power Plant. In summary: Price Range: Popular solar batteries have an installed cost between \$8,000 and \$13,000 including the federal rebate.
