Thailand New Energy Small Container Line Station

Overview

Who is K line container service (Thailand) Ltd?

Since our first location opened in 1989, K Line Container Service (Thailand) Ltd. (KCST) has worked tirelessly to develop Thailand's most convenient and reliable container depots. We have also developed our own state-of-the-art warehouse management system, enabling us to optimize operations to the highest level.

Are small modular reactors a low-carbon baseload option in Thailand?

Another bold move came in May 2024, when Prime Minister Srettha Thavisin announced Thailand's intention to explore Small Modular Reactors (SMRs) as a low-carbon baseload option.

Which energy sources are used in Thailand in 2022?

By 2022, renewable energy sources made up 18.3% of total energy generated in Thailand, a trend of 169% compared to the year 2000. Hydropower leads the way in renewable energy generation, followed by solar photovoltaics, biomass, wind, and biogas.

Will Hitachi energy supply a new rail line in Bangkok?

Hitachi Energy has also been awarded new orders to supply similar power solutions for two other mass transit rail lines in Bangkok – the Yellow Line and Pink Line – starting operations in 2023.
