

Three-box power bank

Overview

Where can I buy a 3C certified power bank in China?

Almost every electronics shop or convenience store in China sells 3C Certified power bank models. Just ask the clerk to show the “3C” mark. Buying locally means no security check stress, no weight issues in your carry-on, and total peace of mind. It’s a smart move for travelers who want to stay powered up without the hassle.

Can I bring a 3C power bank on a train?

Trains have outlets, but power flow can be unstable. So having a safe, certified 3C power bank is your best bet for charging on the go. Q: Can I bring more than one 3C power bank when flying in China?

A: Yes, but there’s a limit. You can bring up to two power banks between 100–160Wh with airline approval. Under 100Wh?

.

Can you carry power banks without a 3C label?

To ensure aviation operation safety, the Civil Aviation Administration of China has issued an urgent notice prohibiting passengers from carrying power banks without a 3C label, with unclear 3C labeling, or belonging to recalled models or batches on domestic flights effective today (June 28). How much does a 3C power bank cost?

A: Not really. Prices have dropped a lot since the 2025 rules kicked in. You can find 3C power banks starting from 79 RMB (around \$11) on JD.com or Pinduoduo. What you pay extra for is peace of mind—tested battery cells, fire-resistant casing, and better lifespan. Cheap, uncertified models may cost less upfront, but fail fast.
