Tunisia makes solar modules

Overview

Which solar projects have been approved in Tunisia?

The Tunisian government has granted licenses to four PV projects with a combined capacity of 500 MW. The selected developers are Qair International, Voltalia, Toyota Tsusho and Scatec. Tunisia's Minister of Industry, Mines and Energy, Fatima Al-Thabat Shibb, has approved four solar projects with a combined capacity of 500 MW.

Does Tunisia have a solar plan?

In this regard, a Tunisian solar plan was adopted in 2015, which aims to reduce primary energy demand by 30% and increase the share of renewables in the electricity production mix to 30% by 2030.

Is Tunisia ready for a large-scale solar project?

It previously completed a 500 MW solar tender in December 2019. In October 2024, Tunisia launched a new tender for 200 MW of large-scale solar, with submissions due by Jan. 15, 2025. Tunisia's total solar capacity reached 506 MW by the end of 2023, according to the International Renewable Energy Agency (IRENA).

What are Tunisia's energy projects?

One third of the projects will be for wind farms and two thirds for solar photovoltaics. Tunisia's national grid is connected to those of Algeria and Libya which together helped supply about 12% of Tunisia's power consumption in the first half of 2023.

Tunisia makes solar modules

The Tunisian government has granted licenses to four PV projects with a combined capacity of 500 MW. The selected developers are Qair International, Voltalia, Toyota Tsusho and Scatec. Tunisia's Minister of Industry, Mines and Energy, Fatima Al-Thabat Shabb, has approved four solar projects with a combined capacity of 500 MW.

For the first time in Tunisia, Tongwei's cutting-edge modules, manufactured with the highest quality materials within its integrated supply chain and designed to meet local ...

A solar module factory in Tunisia focused on DESERT+ technology is a strategic response to a clear and growing market gap. It leverages a superior technological solution, a ...

After years of delays, Tunisia is accelerating the deployment of its large-scale photovoltaic (PV) sector. The Ministry of Industry, Mines, and Energy said construction ...

Tunisia's ambitious plan to increase renewable energy production is geared toward reducing its overreliance on imported gas for its power generation that threatens its energy ...

The significance of Tunisia's solar project contracts is unprecedented and has immense benefits to the nation.

The Tunisian government has granted licenses to four PV projects with a combined capacity of 500 MW. The selected developers are Qair International, Voltalia, ...

The Tunisian government says concession and authorization frameworks are advancing multiple PV projects, while new entrants including SoleCrypt plan additional plants, ...

After years of delays, Tunisia is accelerating deployment of its large-scale photovoltaic (PV) sector. The Ministry of Industry, Mines, and Energy said construction ...

The Tunisian government has granted licenses to four PV projects with a combined capacity of 500 MW. The selected developers ...

Explore the powerful investment case for solar module manufacturing in Tunisia. Leverage duty-free EU access, low costs, and a future-proof model.

The significance of Tunisia's solar project contracts is unprecedented and has immense benefits to the nation.

For the first time in Tunisia, Tongwei's cutting-edge modules, manufactured with the highest quality materials within its integrated ...

As Tunisia intensifies its drive toward a renewable energy future, Jinko Solar, one of the

world's leading solar module manufacturers, took center stage at a prestigious event titled ...
