Tunisia solar container grid

Overview

Will Tunisia build a large-scale PV project?

Tunisia's Ministry of Industry, Mines and Energy has launched a tender for the construction of several large-scale PV projects with a combined capacity of 200 MW.

Does Tunisia support solar?

Tunisia is supporting utility-scale solar through a series of tenders, the latest of which was launched in January 2023. It also finalized a 500 MW solar tender in December 2019. The country's cumulative installed PV capacity stood at just 506 MW by the end of 2023, according to the International Renewable Energy Agency (IRENA).

When do solar projects start in Tunisia?

Interested developers have until Jan. 15 to submit their project proposals. Tunisia is supporting utility-scale solar through a series of tenders, the latest of which was launched in January 2023. It also finalized a 500 MW solar tender in December 2019.

What is Voltalia doing in Tunisia?

French renewable energy company Voltalia will develop and operate the 350 million Tunisian dinar (\$114 million) solar power project, spread over an area of 200 hectares, under a 20-year power purchase agreement (PPA) extendable by additional 10 years together with national grid operator STEG (Société Tunisienne de l'Électricité et du Gaz).
