UPS battery cabinet equipment

Overview

What makes a good UPS battery cabinet?

It is important to find a UPS Battery Cabinet that can easily be configured and adapted to match your UPS Systems; plus your UPS Battery Cabinet should be flexible enough so that it can either be upgraded or fit into any future new projects. Features should offer space-saving features that will fit into the most compact UPS designs.

Does unified power offer battery cabinets?

Unified Power offers a complete line of battery cabinets for both UPS and Telecom Applications. These cabinets can be configured to match OEM cabinets and offer a competitive option for system upgrades or new projects. Features Space saving foot print is the industry's most compact design.

What are Arimon battery cabinets?

Arimon uninterruptible power supply (UPS) backup battery cabinets are available for either front access batteries or top terminal (monobloc) batteries. All battery cabinets are constructed from heavy gauge steel with a durable welded frame and acid resistant powder coated finish available in a wide range of colors.

Why do we need a backup battery cabinet?

Through cutting-edge research and innovation, advanced engineered power products for backup battery cabinets have become essential to our energy future. When the power goes out, battery backups ensure that the Internet, cloud-based data, financial and health records stay accessible.
