

# UPS battery cabinet installation steps

## Overview

---

How to install UPS & battery cabinet?

1. Installation sequence is as follows: 1.1 First, determine the installation location of the UPS and battery cabinet upon arrival at the site. 1.2. Install the battery connection Wires.

How do I install a UPS battery?

For some UPS systems, batteries may be pre-installed, while others require manual installation. Follow the manufacturer's guidelines for inserting and connecting the batteries correctly. Ensure the battery connections are secure and the battery compartment is properly closed.

How do you install a battery cabinet?

Align the cables on the battery terminals so that the cable lug will not contact any part of the cabinet even if the battery is moved. Keep the cable away from any sharp metal edges. Install the battery cables so they cannot be pinched by the battery cabinet or UPS doors. **BATTERY CABINET INSTALLATION.**

Where do I install a line-up and match Battery Cabinet?

Line-up-and-match battery cabinets are installed adjacent to the UPS. The recommended installation location is on the right side of the UPS cabinet. See Figure 2 and Figure 3 for line-up-and-match configuration views. Contains two or three battery strings to be used with the 93E 30 kVA UPS.
