Ukrainian power generation container house BESS

Overview

Will DTEK build a 200MW battery energy storage system in Ukraine?

DTEK unveils €140m plan for 200MW battery energy storage systems in Ukraine. (Credit: DTEK) DTEK Group, a private investor in Ukraine's energy sector, has announced a €140m investment plan to construct a series of battery energy storage systems (BESS) in the country with a combined capacity of 200MW.

Why did DTEK start building energy storage systems in Ukraine?

"DTEK was the first company to start building energy storage systems and open this market in Ukraine back in 2021. "Our priority remains unchanged: to develop green energy in Ukraine, accelerate the integration of the country's energy system into Europe and to strengthen our country's energy security."

Can battery technology decentralise Ukraine's energy system?

Battery technology plays a crucial role in decentralising Ukraine's energy system to mitigate the impact of energy supply disruptions caused by Russia, said the energy investment company.

How many battery energy storage systems are there in Kyiv & Dnipropetrovsk?

The six battery energy storage systems (BESS) range from 20MW to 50MW each, have been connected to the power grid in the Kyiv and Dnipropetrovsk regions, and will provide ancillary services to transmission system operator (TSO) Ukrenergo.
