# **Uninterruptible power supply and installation of optical cables in Swiss base station room**

## Overview

---

What is a method statement for uninterruptible power supply?

This Method Statement applies to all installations of Uninterruptible Power Supply at Project electrical works. Manpower and equipment shall be organized to meet the schedule as per the approved construction program. 3. Definition 3.1. Abbreviation UPS - Uninterruptible Power Supply QAQC - Quality Assurance Quality Control MS - Method Statement.

What is an uninterruptible power supply system (UPS)?

the normal operation of the critical equipment. These special methods and means applied in devices are received popularity as “UPS” (Uninterruptible Power Supplies). Uninterruptible Power Supply Systems (Griffith, 1989; Emadi, 2005; Gurrero, 2007). responsible consumer at a drop off of the source voltage. Different changes in the quality of.

How will the battery disconnection panel be connected to the ups?

The battery disconnection panel will be connected to the UPS. Also, a control cable will be laid from the UPS to the Battery disconnection panel. All battery cabling will be done in dedicated cable trays installed on uni-strut channel supports as shown in the approved drawings.

Does a system secure supply at a drop-off of the electrical source?

Some of the systems secure supply at a drop off of the electrical source but they do not resist other changes. low power to supply PC), are yet offered at the Market. the source voltage, which would be unpleasantly affects a responsible consumer, exist. specialty of the consumer is used.
