

**NKOSITHANDILEB SOLAR**

# **Uninterruptible power supply supplier in Basseterre**

## Overview

---

What is an uninterruptible power supply (UPS) system?

Used across a wide range of applications and industries, Uninterruptible Power Supply (UPS) Systems are designed to provide a continuous source of input power despite mains failure, electrical surges and power interruptions.

What is a three-phase online modular uninterruptible power supply system?

Three-Phase online modular uninterruptible power supply systems from the Modulon UPS family offer scalability and redundancy in a single frame, with up to 600 kVA. Delta's UPSs are some of the most advanced in the industry, renowned for their innovation, reliability, and efficiency.

What is a DC-UPS with external batteries?

The DC-UPS with external VRLA batteries feature the PULS' 1-Battery-Concept: This means each battery is individually charged and monitored, which avoids the need for matched batteries and ensures longest battery life. What is a UPS module?

UPS is the short version of "uninterruptible power supply".

Who do you partner with for uninterruptible power supplies?

We only partner with suppliers who meet our stringent supply chain standards for quality (ISO 9001), health and safety (ISO 18001), and environmental management (ISO 14001). Browse our full selection of uninterruptible power supplies or contact us today if you have any questions regarding our range. Call 0800 088 5412
