

# Wattage of solar cells in Chiang Mai Thailand

## Overview

---

### What is Chiang Mai University solar PV Park?

Chiang Mai University Solar PV Park is a 12MW solar PV power project. It is located in Chiang Mai, Thailand. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active. It has been developed in a single phase. Post completion of construction, the project got commissioned in 2020.

### Who is Chiang Mai solar?

the only local manufacture of solar panels! Chiang Mai Solar designs and installs solar-related systems such as Solar Electric Systems, Solar Water Heating, Solar Pool Heating and many more. Utilizing solar energy through Solar cells or a dedicated solar power receiver. To help save money in the long term and environmental friendly.

### How do solar panels work in Thailand?

In Thailand, these are comprised of rooftop PV systems, ground-mounted PV systems and floating PV systems. The implementation can be done in both self-consumption with the ability to sell the excess electricity back to the grid, and with the private power purchase agreement (private-PPA) aspects.

### How many solar panels are installed in Thailand?

Thailand cumulative PV installed capacity was at 3 939,8 MWp, consisting of 3 933,7 MW of grid-connected PV systems and 6,1 MWp of off-grid PV systems. Most of the total installed capacity was ground-mounted PV systems. In 2020, Thailand annual grid-connected systems installation was 143,64 MWp.
