# Which company is bidding for 5G base stations in Japan

Our Lifepo4 batteries can be connected in parallels and in series for larger capacity and voltage.

## Overview

---

How many 5G base stations did SoftBank and KDDI build?

Through 5G JAPAN, SoftBank and KDDI have jointly built out over 5G 38,000 base stations each, resulting in capital expenditure cost reductions of 45.0 billion yen for each company \*2.

Will KDDI & SoftBank join a 5G joint venture?

The companies' collaboration is expected to expand from rural areas to encompass nationwide coverage, possibly transforming the connectivity environment for businesses and consumers throughout the country. On Apr, KDDI and SoftBank launched a joint venture called 5G JAPAN Corporation.

What is Japan's 5G initiative?

This initiative aims to bolster Japan's telecommunications infrastructure and accelerate the adoption of 5G technology across the country. The companies' collaboration is expected to expand from rural areas to encompass nationwide coverage, possibly transforming the connectivity environment for businesses and consumers throughout the country.

Does KDDI have a 5G base station?

The company will support KDDI in deploying "manhole-shaped" 5G base stations, supplying sub-terrain antennas. Vault base stations enable service providers and cities to place equipment in existing underground vaults, with fiber and power infrastructure connected to antennas on the ground level.
