Which outdoor wind power base station is professional

Overview

What is Laba mountain wind power project?

The Laba Mountain Wind Power Project, part of the first batch of large wind and solar power base projects in China and the largest wind power project commissioned in Southwest China's Sichuan-Chongqing region since the "14th Five-Year Plan," officially commenced electricity generation on Thursday.

What is the TP-Link outdoor wireless base station?

The TP-LINK Outdoor Wireless Base Station pairs professional performance with user-friendly design, making it the perfect solution for both business and home users. Two external RP-SMA antenna interfaces allow the Outdoor Wireless Base Station to integrate seamlessly with TP-LINK's line of sector and dish antennas.

What is Damm bs421 outdoor system?

Mast-mountable and compact IP65-encapsulated TETRA system, a powerful base station transceiver and distributed controller ideal for outdoor or indoor mounting. The DAMM BS421 Outdoor System is a mast-mountable and compact IP65-encapsulated TETRA communication system.

Where is Laba mountain wind power field located?

The Laba Mountain Wind Power Field is located in Dechang County, Liangshan Yi Autonomous Prefecture, Sichuan Province, and is distributed along the northern, central, and western sections of the Laba Mountain's main ridge, ranging from 2,154 meters to 3,229 meters above sea level.
